Free E-Bike Trial Scheme

Why trial an E-bike?

Here at EPIKs we are determined that people should be able to travel at low cost and low impact to the environment. E-bikes are fast, fun and good for our health but they can be expensive and buying the right one can be a difficult decision. With support from the West Yorkshire Combined Authority's CityConnect project and expertise from Manchester Bike Hire, we've teamed up to give UoH staff the chance to see for yourself that e-bikes are a real alternative to the motor car.

Electric assisted pedal bikes give extra power just when you need it allowing:

- Longer cycle trips
- An easier commute
- More people to cycle
- Active journeys
- A smoother ride
- Shorter journey times
