

WALK > > WHEEL RIDE >

This summer EPIKS is launching its Walk Wheel Ride Roadshow

We can inspire your employees to choose a healthier, more climate-friendly option of walking or cycling to work and introduce them to the benefits of e-bikes.

Identifying local, traffic-free walking routes

Roadshow Menu

>>> Try an e-bike £1,350*

E-bikes provide pedal assistance, reaching speeds of 15mph, so that riders can tackle hills without breaking a sweat. E-bikes are a great way to travel to work as a fast and affordable alternative to driving.

Our qualified trainer can either:

- help people take a short ride around nearby traffic-free path or carpark to get a feel for how e-bikes work and handle.
- or take more competent riders on a mapped, 3 mile route that includes hills and varied surfaces.

i Our Walk, Wheel, Ride online hub provides back-up information for all types of mobility- inside and outside of the workplace.

>>> Basic Walk, Wheel, Ride Roadshow £750*

- route guidance for walkers, wheelchairs and bikes
- advice on safety, skills and training
- a range of bikes to illustrate options for riders and their budgets
- advice on bike security and locking systems
- tips for staying warm and dry as you walk and ride

>>> EPIKS has a track record of running Try an e-bike sessions for large local employers and for community events in Kirkburton and Dewsbury.

office@epiks.org.uk

"I have decided to buy an e-bike and give up my car. Your event was exactly what I needed to help me choose. I have appreciated your knowledge."

All activities come with:

- 3x3 gazebo
- £5 million public liability insurance
- tailored risk assessment
- e-delivery van (available for demonstration)

*Prices discounted for a limited number of two events
